DVD OF YEARLY VISITS WITH SANTA!

Our number one request from our customers was to make the move to DVD's and away from VHS tapes. We have searched high and low to determine the best and most economical way to provide this service.

We will record your child's/family's visit with Santa on a hard disk based system. Each year's visit will be burned on a dated DVD and will feature a special introduction of Santa reading "Twas the Night Before Christmas."

We use lapel microphones on Santa so as to be able to obtain the best possible audio and video of your child's visit with Santa.

It is important to remember that, due to restrictions of the medium, DVD's cannot be added to year after year. Therefore, each year you will receive a dated DVD case suitable for being placed in a collection on your bookshelf. We will be keeping each of your year's visits MASTERED for both safety and for creating a collection DVD of all your yearly visits at a later date.
