DVD OF YEARLY VISITS WITH SANTA!

Our number one request from our customers was to make the move to DVD's and away from VHS tapes. We have searched high and low to determine the best and most economical way to provide this service.

We will record your visit with Santa on a hard disk based system. Each year's visit will be placed on a dated DVD in a case along with a special intro of Santa reading "*'Twas the Night before Christmas.*"

We use lapel microphones on Santa so as to be able to obtain the best possible audio and video of your child's visit with Santa.

It is important to remember that due to restrictions of the medium, DVD's cannot be added to year after year. Therefore, each year you will receive a dated box suitable for being placed in a collection on your bookshelf. We will be keeping each year's visits MASTERED for both safety and for creating a collection DVD of all your yearly visits at a later date.

2009 Pricing for DVD Transfer

Master your VHS Santa visits to DVD

With the obsolescence of VHS tapes and players, we are pleased to offer a DVD mastering process of your family's yearly visits with Santa. We will create a menu with each year selectable and will edit out any black areas/fringe pieces of video from your old VHS tape.

Bring your tape or tapes to the Santa Booth and we will digitize it while you shop.

This service is available for past and present Santa at Phipps customers so please help us pass the word to families who would like to preserve their cherished memories forever as well.

We will include all transfer copies in a DVD and case with your choice of our "Classic" Santa Intro or our "New" version with Santa reading "*'Twas the Night before Christmas*".

This mastering process will be in the same style box/menu as our new yearly DVD process. Continue your yearly tradition with this compilation of your past years and start a new book case collection to continue this classic tradition in a format you will be able to enjoy for years to come!
